CAREER SUMMARY

Passionate and creative Website Developer with over 5+ years of experience in designing and developing diverse websites. Proficient in building university, law firms, e-commerce, E-learning, and dynamic websites for various companies. Currently enhancing an LMS system website using Next.js.

SKILL HIGHLIGHTS

Technical Skills: Python**,** Django, Flask, FastAPI, REST API, PHP, Laravel, MySQL, SQL, Next JS, React JS, TypeScript, WordPress, Wix, n8n Automation, React Router, React Hooks, JavaScript, jQuery, ES6, REST API, Bootstrap-5, Tailwind CSS, React Bootstrap, CSS3, HTML5.

Tools: GitHub, Bitbucket, Chrome DevTools, VS Code, Vercel, Figma, Photoshop, JSON, XAMPP, PyCharm

PROFESSIONAL EXPERIENCE

1. **Jr. Software Developer at Washington University of Science and Technology || November 2026 – Present || Remote**

   Roles & Responsibilities:
   - Develop, maintain, and enhance web applications using modern web technologies.
   - Work on backend functionality, database integration, and RESTful API development.
   - Develop and maintain application features using PHP, Laravel, and MySQL.
   - Build responsive and user-friendly interfaces using HTML, CSS, JavaScript, React.js, and Tailwind CSS.

2. **Instructor – Web Design & Development with PHP at eShikhon.com. || July 2026 – October 2026 || Part-time**

   Roles & Responsibilities:
   - Conducting practical and project-based training sessions on PHP, Laravel, MySQL, HTML5, CSS3, Bootstrap, and JavaScript.
   - Teaching PHP fundamentals, Object-Oriented Programming (OOP), databases, and CRUD operations.
   - Guide students in developing real-world projects and portfolio-ready applications.
   - Stay updated with modern web technologies and programming trends to enhance course content.

3. **Associate Trainer-Digital Business Operations at Infosystem Technology Limited, BACCO-SICIP Program || August 2026 – Present**

   Roles & Responsibilities:
   - Provide hands-on training on eCommerce platforms, including WooCommerce, for setting up and managing online businesses.
   - Train learners on CRM and customer support tools, including Zoho CRM, HubSpot, and Freshdesk.
   - Introduce **Business Automation and AI-powered workflows** using tools such as Claude AI, native CRM/ERP automation, Zapier, and Make.

4. **Web Design Trainer at Infosystem Technology Limited. || January 2026 – June 2026**

   Roles & Responsibilities:

   - Deliver comprehensive training on modern web design technologies, including HTML5, CSS3, Bootstrap, and JavaScript.
   - Guide students through real-world projects to build practical, industry-ready skills.
   - Evaluate student performance through assignments, quizzes, and project reviews.
   - Introduce best practices in responsive design, UI/UX principles, and cross-browser compatibility.

5. **Web Developer at PeopleNTech Ltd. || January 2023 – December 2025**

   Roles & Responsibilities:

   - Created and maintained code for 30+ websites(re-designs, sectional updates, production work).
   - Collaborated with UI/UX designers to transform designs into high-quality, responsive user interfaces.
   - Utilized modern JavaScript features and libraries to write clean, maintainable, and efficient code.
   - Improved site performance using lazy loading, code splitting, and asset optimization.
   - Documented codebases and front-end processes, ensuring clear communication and ease of onboarding for new team members.

6. **Web Developer (React JS) at Qualyval Consulting. || October 2022 – December 2022**

   Roles & Responsibilities:

   - Designed and developed responsive web applications using React.js and Next.js, enhancing user experience and engagement.
   - Integrated RESTful APIs and GraphQL endpoints to facilitate smooth communication between the front-end and back-end systems.
   - Optimized web applications for performance and SEO, improving load times and search engine visibility.

PROJECTS

---

1. Washington University of Science and Technology (WUST) | Live Link | GitHub Link

Project Overview

- Developed a comprehensive, fully functional web portal and information platform for Washington University of Science and Technology (WUST) to streamline academic services, institutional operations, and user engagement.
- Designed an intuitive, modern, and user-friendly interface aligned with higher education standards and user experience (UX) best practices.
- Implemented secure and distinct login dashboards tailored for Students, Faculty/Teachers, and Management.

Technology Used: HTML5, CSS3, Bootstrap-5, JavaScript, jQuery, PHP, Laravel, MySql, Ajax.

2. Jatiya Kabi Kazi Nazrul Islam University Website | Live Link | GitHub Link

Project Overview

- I have worked on making a full website for Jatiya Kabi Kazi Nazrul Islam University.
- I am designing the first user interface (UI) and user experience (UX).
- Different Login Dashboards for Students, Teachers, and Management.

Technology Used: HTML5, CSS3, Bootstrap-5, JavaScript, jQuery, PHP, Laravel, MySql, Ajax.

3. University of Barishal | GitHub Link | Live Link

Project Overview

- Developed a full dynamic web application using **PHP and Laravel**, following the MVC architecture.
- Developed an **admin dashboard** to manage website content, users, categories, and other dynamic data.
- Designed and implemented a responsive and user-friendly interface for an efficient user experience.
- Focused on clean code structure, reusable components, and maintainable Laravel development practices.
- Implemented **form validation, authentication, routing, controllers, models, and Blade templates** for secure and structured application development.

Technology Used: PHP, Laravel, MySQL, Blade, HTML5, CSS3, Bootstrap 5, JavaScript.

4. PeopleNTech Bangladesh – IT Training & Placement Platform | GitHub Link | Live Link

Project Overview

- Developed a full-featured, dynamic web platform for PeopleNTech Bangladesh—a premier IT training institute, designed to showcase professional courses, manage student admissions, and streamline career placement services.
- Integrated advanced course filtering systems, automated registration/enrollment workflows, live batch status updates, and interactive student support sections.

Technology Used: Tailwind CSS(daisyUI), React. js, Next .js, JavaScript, PHP, Laravel, MySQL

5. PeopleNTech LLC (Global Corporate & Workforce Solutions Platform) | GitHub Link | Live Link

Project Overview

- Engineered a modern, responsive, and enterprise-grade user interface focusing on seamless navigation, professional branding, and optimal user experience (UX) across global business sectors.
- Integrated structured service sections for Workforce Solutions, Technology Solutions, IT Staffing, Statement of Work (SOW) management, and consulting portfolios.

Technology Used: PHP, Laravel, MySQL, Blade, HTML5, CSS3, Bootstrap 5, JavaScript.

6. National STEAM Olympiad – Educational Competition | GitHub Link | Live Link

Project Overview

- Integrated segment-based competition modules (Robotics, AI, ICT, Engineering, Mathematics, Science, etc.), automated registration workflows, multi-tier participant tracking (Online & Divisional rounds), and grand finale event management features.
- Built robust multi-role registration and management systems for participants, institutional partners, student ambassadors, and volunteers, alongside secure login dashboards.

Technology Used: PHP, Laravel, MySQL, Blade, HTML5, CSS3, Bootstrap 5, JavaScript.

7. ITesseract-Technologies(LMS) | GitHub Link | Live Link

Project Overview

- Full Dynamic website for a company that provides an E-learning platform. I am designing the user interface (UI) and user experience (UX).
- Admin can add Courses, Packages, Blogs, Teams, Course videos, Teams, Teachers, and galleries, and can also add dynamic Banner and footer data from the dashboard.
- Users can make appointments and manage appointments and user profiles.

Technology Used: Tailwind CSS(daisyUI), React js, JavaScript, Clerk(User Management Platform), React

8. Job Portal – Full-Stack Job Search & Recruitment Platform | GitHub Link | Live Link

Project Overview

- Integrated advanced job searching/filtering options, user authentication, profile management, and smooth application tracking workflows.
- Implemented secure and distinct dashboards for Job Seekers (to manage profiles, resumes, and job applications) and Employers/Recruiters (to post jobs and manage applicants).
- Designed a modern, responsive, and intuitive user interface to ensure a seamless job search and application experience across various devices.

Technology Used: Python, Django / FastAPI, HTML5, CSS3, Bootstrap 5, JavaScript, SQLite, AJAX.

TRAINING

- **Complete Web Development** (Programming Hero)
- **Web Development** (PeopleNTech Institute of IT)
- **Software Testing** — PeopleNTech Institute of IT

CERTIFICATE

- **Web Design and Development for freelancing, Level 3, under NSDA**
- **Computer Operation, Level 3, under NSDA**
- **Web Application Development with Python, Level 4, under NSDA**
- **Web Design, Level 3, under NSDA**

EXTRA-CURRICULAR ACTIVITIES

- **Problem-Solving:** GeeksforGeeks: I have solved 100+ |
- **Student Prefect for Computer Science and Engineering Department** (Have been providing support as a student prefect)
- **Contest Participation**
    - Participated in the DIU Take-off Programming Contest.
    - Competed in the ICPC Asia Dhaka Regional Preliminary Round.

EDUCATIONAL QUALIFICATION

- **Bachelor's Degree (B.Sc.)** - Computer Science and Engineering(CSE) **-** Sonargaon University (SU)
- **Diploma in Engineering** - Computer Science and Engineering(2017-2021) - Patuakhali Polytechnic Institute

LANGUAGE PROFICIENCY

Bangla - Native **| English -** Professional Working Proficiency
